**Note Copper Toxicosis is only mildly influenced by genetics, a dog can develop the disease without being genetically predisposed as this disease is heavily environmentally influenced).*

Pawprint Genetics: Although the OFA does not provide certificate numbers, the sire is also clear for the following diseases, copies of the test results are provided in puppy pack: Cone Rod Degeneration (Lab Ret Type); Congenital Myasthenic Syndrome (Lab Ret Type); Elliptocytosis; Ichthyosis (Golden Ret Type); Long Coat Gene; Myotubular Myopathy 1; Stargardt Disease.

**All certificates are available for viewing at www.brookhavenlabs.com.
Copies provided when full stud fee has been paid.**

Name of Bitch to be Bred: _____

AKC#: _____

Owner’s Name(s): _____

Address: _____

Phone #: _____

Conditions of Service:

The bitch owner will provide proof of numbers 2 through 6 below:

1. The bitch must be in good health and condition
2. The bitch must have an AKC Full Registration Certificate
3. Hips/Elbows: Proof of OFA clearances, or acceptable alternative evaluations
4. Eyes: CERF clearance certificate and/or ACVO Ophthalmologist exam report
5. Proof of testing for the Dilute Gene. Semen will only be sold to bitches who are clear of the dilute gene.
6. Heart: a bitch must have a Color Echo Doppler Clearance performed by a cardiologist.
7. A four generation pedigree

Additional Terms, Fees & Conditions:

1. The cost is \$1,000 for one side by side breeding when the bitch is brought to the stud for breeding, consisting of two collections/inseminations. You may purchase one additional collection/insemination or \$250.00. A Service fee of \$300.00 is due at the time of breeding.

- Or -

The cost is \$1300 for one breeding that is collected, prepared/extended and shipped by my veterinarian (actual shipping fees not included), consisting of two collections/inseminations, there will be no additional fees for veterinarian services. You may purchase one additional collection/insemination or \$500.00. A Service fee of \$300.00 is due at the time of breeding.

In both cases, the remainder of the stud fee is due before the Stud Owner will sign the AKC litter registration or any other paperwork. Should this breeding not produce 3 live puppies or more, then the balance of the stud fee will be waived by the stud owner providing the bitch owner performed progesterone tests on the bitch to determine time of ovulation.

2. You must use the semen for the approved bitch listed on page 1.
3. The bitch owner is responsible for all shipping costs associated with this breeding, to include the cost of shipping boxes unless the boxes are returned to the stud owner or the bitch owner provides their own box*. Shipping will be via Fed Ex. You must provide the Stud owner with a Fed Ex account number or credit card number to pay for shipping.

*The bitch owner may choose to purchase semen shipping boxes and have them delivered to the stud owner prior to shipment, you may choose to mail personal semen shipping boxes to be used **or** you may borrow the Stud Owner's semen shipping boxes guaranteeing that they will be returned via postal service, UPS or Fed Ex within one week of breeding, all expenses to be incurred by the bitch owner. (A \$75 fee will be charged for all unreturned boxes and must be paid before the AKC paperwork will be signed).

4. The bitch owner will supply Brookhaven Labradors with the date of breeding, all progesterone test results, method of insemination and approximate due date.

Note: We do not guarantee the sale of your puppies, but we are available to assist in placing your puppies. We are not responsible for any bitch owner veterinarian costs or fees resulting from this breeding.
